

HOFFMAN'S HORSE MINERAL[®]

A Mineral Supplement for Maintenance of Horses

Registration No: 840061

This feed contains added selenium at 15 mg/kg

GUARANTEED ANALYSIS

Calcium (actual).....	12.0%	Iodine (actual).....	40 mg/kg	Biotin (min).....	6,200 mcg/kg
Phosphorus (actual).....	8.0%	Zinc (actual).....	4,000 mg/kg	Folic Acid (min).....	60 mg/kg
Sodium (actual).....	3.0%	Manganese (actual).....	2,100 mg/kg	Niacin (min).....	1,600 mg/kg
(Equivalent to approx. 7.5% Salt)		Copper (actual).....	700 mg/kg	Pantothenic acid (min).....	200 mg/kg
Magnesium (actual).....	1.6%	Cobalt (actual).....	30 mg/kg	Riboflavin (min).....	175 mg/kg
Sulphur (actual).....	0.50%	Vitamin A (min).....	600,000 IU/kg	Thiamine (min).....	350 mg/kg
Fluorine (max).....	2,000 mg/kg	Vitamin D ₃ (min).....	40,000 IU/kg	Pyridoxine (min).....	90 mg/kg
Iron (actual).....	4,000 mg/kg	Vitamin E (min).....	1,100 IU/kg	Vitamin B12 (min).....	500 mcg/kg
		Menadione (min).....	6.0 mg/kg		

INGREDIENTS

A list of the ingredients used in this feed may be obtained from the manufacturer or registrant.

FEEDING DIRECTIONS

Free Choice: Place Hoffman's Horse Mineral in an open mineral feeder protected from the elements. Place one feeder for every 10-15 head. Initially, remove all sources of salt. Place enough mineral for 2-3 days consumption in the feeder(s). Monitor intake, if mineral intake exceeds 200 grams per head per day, add salt blocks to the mineral feeder, approximately one block for every 10-15 head. Expected free choice consumption will be approximately 150 – 200 grams per head per day, this will vary depending on the condition of the horses, plan of nutrition, age, weight, weather conditions and sex of the horse.

Top Dressing: Hoffman's Horse Mineral may also be top dressed on the horse's daily grain allowance. Top dress 150 – 200 grams for mature horses. For best results, top dress in two equal daily feedings. Allow horses access to clean water and adequate, dust free good quality forage at all times.

NOTE: Feeding vitamins other than Vitamins A, D, E, riboflavin, pyridoxine and thiamine to horses may not have a beneficial effect.

CAUTION: Directions for use must be carefully followed. Do not use in association with another grain ration, supplement or premix containing supplemental selenium. This feed contains copper. Do not feed to sheep or other copper sensitive species.

Liability Disclaimer: Individual results from the use of this product may vary due to management, environmental, genetic, health and sanitation differences. Therefore, ADM Animal Nutrition does not warrant or guarantee individual results.
