PRODUCT FEATURES

- Balanced mineral/vitamin package
- Excellent supplement for spring & summer pastures
- Ideal for breeding season, can be fed year round

MINERAL TUB SUPPLEMENT FOR BEEF CATTLE ON PASTURE

REGISTRATION #641169

This feed contains added Selenium at 6.0 mg/kg.

INGREDIENTS

Beet molasses, distillers dried grains, vegetable fat, monocalcium phosphate, dicalcium phosphate, limestone, zinc sulfate, manganese sulfate, copper chloride, sodium selenite, ethylenediamine dihydriodide, cobalt carbonate, vitamin A acetate, vitamin D3, vitamin E.

FEEDING DIRECTIONS

Provide free-choice as a supplement to pasture beef cattle at the rate of one block for each 15 to 25 head. Place blocks in each pasture near areas frequented by livestock, such as watering locations, shade or loafing areas. Cattle normally consume approximately 0.23 kg per head daily. Consumption may vary depending on climate, grazing conditions, condition of livestock and/or availability of other feeds. In situations where climate and/or other factors result in consumption of less than 0.23 kg per head daily, intake of supplements can be increased by increasing the number of blocks per pasture.

CAUTION

Direction for use must be carefully followed.

Do not use in association with other feeds containing supplemental Selenium.

Provide access to fresh water and free-choice salt at all times.

MANUFACTURED FOR:

UFA Co-operative Limited
Suite #700, 4838 Richard Road SW
Calgary, Alberta T3E 6L1
