Crude Fiber (Max.) 22.0%		Vitamin D3 (Min.) IU/kg	2,500
Calcium (Actual) 1.1%		Vitamin E (Min.) IU/kg	200
Phosphorus (Actual) 0.7%			
Sodium (Actual) 0.35%			

Feeding Directions

Hoffman's Equine Developer Ration is a part of the Hoffman's line of equine feeds. This feed is intended to be fed at 1.0 – 3.0 kg per head daily, in at least 2 equal, separated feedings. Good quality hay should be fed at 1.0 – 2.5 kg per 100 kg of body weight. This ration is intended for weanling foals up to two years of age. For foals around weaning time, feed approximately 1.5 to 2.5 kg per day. Once weaned, feed to keep growth and condition adequate. The actual feeding level will be determined by the quality of the forage, level and intensity of the work, and the condition of the horse. Always allow free choice access to clean water, salt and Hoffman's Horse Mineral.

Features and Benefits

- ❖ **Formulated for weanling foals up to horses two years of ages**
- ❖ **Low NSC and starches**
 - Low starch allows horse to start training with a more collected mind
- ❖ **Fat based energy sources**
 - Energy lasts for longer periods of time
- ❖ **Complete with all the vitamins and minerals needed for optimal health**
 - Allows for good growth and skeletal development
- ❖ **Pelleted**
- ❖ **Balanced Amino Acids**
 - Has the amino acids needed by young horses for optimal muscular and skeletal growth
