

### SECTION 1. CHEMICAL PRODUCT AND COMPANY INFORMATION

Product nameHORNET™ 432 F FOLIAR FUNGICIDEPCP Registration No.32500

Nufarm Agriculture Inc. Suite 350, 2618 Hopewell Place NE Calgary, Alberta T1Y 7J7 Canada

For MEDICAL, TRANSPORTATION or other EMERGENCY call: 1-800-424-9300 (24 hours/day) For Product Information call: 1-800-868-5444

### SECTION 2. HAZARDS IDENTIFICATION

| NOTE: Please refer to Section<br>Emergency Overview | on 11 for detailed toxicological information.<br>Caution! Harmful if swallowed, inhaled or absorbed through the skin. Avoid<br>contact with skin, eyes and clothing. Avoid inhalation of vapour or mist. |
|---|--|
| Physical State                                      | liquid suspension  |
| Odor  | chalk-like   |
| Appearance  | off-white  |
| Exposure routes                                     | Eye contact, Ingestion, Inhalation, Skin Absorption  |
| Immediate Effects<br>Eye                            | May cause mild irritation to eyes. Avoid contact with eyes.  |
| Skin  | May cause slight irritation. Harmful if absorbed through skin. Avoid contact with skin and clothing.   |
| Ingestion   | Harmful if swallowed. Do not take internally.  |
| Inhalation  | Harmful if inhaled. Avoid inhalation of vapour or mist.  |
| Chronic or Delayed<br>Long-Term                     | This product or its components may have target organ effects.  |
| Potential Environmental<br>Effect                   | Toxic to mammals. Toxic to fish and aquatic invertebrates.   |

| SECTION 3 COMPOSITIO                                  | N/INFORMATION ON INGRI  |  |   |
|---|---|--|---|

| SECTION 4. FIRST AID ME                               | EASURES   |  |   |
| General   | When possible, have the poison control center or de                                   |  | bel with you when calling a ment.                                 |
| Еуе   | Hold eye open and rinse s<br>Remove contact lenses, if<br>eye. Call a physician or po | present, after the first                       | 5 minutes, then continue rinsing                                  |
| Skin  |   |  | diately. Wash off immediately<br>a physician or poison control    |
| Ingestion   |   | c. DO NOT induce von<br>rol center. Never give |   |
| Inhalation  |   | ably mouth-to-mouth i                          | 911 or an ambulance, then give<br>f possible. Call a physician or |
| Notes to physician<br>Treatment                       | Appropriate supportive an condition is recommended                                    |  | ent as indicated by the patient's antidote.                       |

## **SECTION 5. FIRE FIGHTING MEASURES**

| Flash point                  | > 93.4 °C / 200.1 °F                            |
|------------------------------|---|
| Autoignition temperature     | 405 °C / 761 °F                                 |
| Lower Flammability<br>Limit  | no data available                               |
| Upper Flammability Limit     | no data available                               |
| Suitable extinguishing media | Carbon dioxide (CO2), Dry chemical, Foam, Water |

| Fire Fighting | Keep out of smoke. Fight fire from upwind position. Evacuate personnel to safe areas. Cool closed containers exposed to fire with water spray. Do not allow run- |
|---------------|--|
| Instructions  | off from fire fighting to enter drains or water courses.   |
|               | Firefighters should wear NIOSH approved self-contained breathing apparatus<br>and full protective clothing.  |

#### **SECTION 6. ACCIDENTAL RELEASE MEASURES**

| Personal precautions    | Keep unauthorized people away. Isolate hazard area. Avoid contact with spilled product or contaminated surfaces. Remove all sources of ignition.   |
|-------------------------|--|
| Methods for cleaning up | Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Collect and transfer the product into a properly labelled and tightly closed container. Clean contaminated floors and objects thoroughly, observing environmental regulations. Contaminated soil may have to be removed and disposed. |
| Additional advice       | Use personal protective equipment. Do not allow to enter soil, waterways or waste water canal. Do not allow product to contact vegetation.   |

#### **SECTION 7. HANDLING AND STORAGE**

| Handling procedures         | Handle and open container in a manner as to prevent spillage. Maintain exposure levels below the exposure limit through the use of general and local exhaust ventilation.   |
|-----------------------------|---|
| Storing Procedures          | Store in a cool, dry place and in such a manner as to prevent cross<br>contamination with other crop protection products, fertilizers, food, and feed.<br>Store in original container and out of the reach of children, preferably in a locked<br>storage area.   |
| Work/Hygienic<br>Procedures | Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, using the toilet or applying cosmetics.   |
|                             | Remove Personal Protective Equipment (PPE) immediately after handling this product. Before removing gloves clean them with soap and water. Remove soiled clothing immediately and clean thoroughly before using again. Wash thoroughly and put on clean clothing. |

### **SECTION 8. EXPOSURE CONTROLS / PERSONAL PROTECTION**

**General Protection** Train employees in safe use of the product. Follow all label instructions.

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such

|                           |                        | r washables, use dete<br>ly from other laundry.  | ergent and warm/tepid water. Kee   | p and wash   |
|---------------------------|------------------------|--|--|--|
| Eye/Face Protection       | Safety glasses         | s with side-shields  |  |  |
| Hand protection           |                        | stant gloves made of v<br>r laminate or nitrile rub  | waterproof material such as neor<br>ber.   | orene, butyl   |
| Body Protection           | Wear long-sle          | eved shirt and long pa   | ants and shoes plus socks.   |  |
| Respiratory protection    | actual or poter        | ntial airborne concenti  | ct NIOSH approved equipment b<br>rations and in accordance with th<br>d/or industry recommendations. |  |
| Exposure Limits           |                        |  |  |  |

| Viscosity                                  | 800 - 1,200 mPa.s |

#### **SECTION 10. STABILITY AND REACTIVITY**

| Conditions to avoid                 | Extremes of temperature and direct sunlight. freezing   |
|-------------------------------------|---|
| Incompatibility                     | no data available   |
| Hazardous<br>Decomposition Products | Thermal decomposition can lead to release of:<br>nitrogen oxides (NOx)<br>Carbon monoxide<br>Hydrogen cyanide (hydrocyanic acid)<br>Hydrogen chloride (HCI) |
| Chemical Stability                  | Stable under normal conditions.   |

### SECTION 11. TOXICOLOGICAL INFORMATION

Only acute toxicity studies have been performed on this product as formulated. The non-acute information pertains to the technical-grade active ingredient, tebuconazole.

| Acute oral toxicity       | male rat: LD50: 3,776 mg/kg   |
|---------------------------|---|
|                           | female rat: LD50: 3,710 mg/kg   |
| Acute dermal toxicity     | male/female combined rat: LD50: > 2,011 mg/kg   |
| Acute inhalation toxicity | male/female combined rat: LC50: > 2.5 mg/l<br>Exposure time: 4 h<br>Determined in the form of liquid aerosol.<br>Highest attainable concentration.<br>No deaths |
|                           | male/female combined rat: LC50: > 10 mg/l<br>Exposure time: 1 h<br>Determined in the form of liquid aerosol.<br>Extrapolated from the 4 hr LC50.                |
| Skin irritation           | rabbit: slight irritation   |

| Eye irritation   | rabbit: Minimally irritating.  |
|------------------|--|
| Sensitisation    | guinea pig: Non-sensitizing.   |
| Chronic toxicity | Tebuconazole caused liver, spleen, adrenal and/or eye effects at high doses in chronic studies in rats and dogs. |

#### **Assessment Carcinogenicity**

Tebuconazole is classified by EPA as a Group C carcinogen (possible human carcinogen) based on liver tumors in mice and no evidence of carcinogenicity in rats. As the liver tumors were seen only at a dose exceeding a Maximum Tolerated Dose (MTD), no significant carcinogenic risk is posed for human exposure.

ACGIH None. NTP None. IARC None. OSHA None.

| Reproductive toxicity       | REPRODUCTION: Tebuconazole is not considered a primary reproductive toxicant in rats. Reproductive effects (e.g., smaller litters) were observed at the highest concentration but were considered secondary to maternal toxicity. |
|-----------------------------|---|
|                             | DEVELOPMENTAL TOXICITY: Tebuconazole is not considered a primary developmental toxicant in laboratory animals. Developmental effects were observed only at doses that caused maternal toxicity.                                   |
| Assessment<br>neurotoxicity | Tebuconazole caused only transient neurobehavioral effects (e.g., decreased motor activity) in acute, subchronic and/or developmental neurotoxicity studies in rats.  |
| Mutagenicity                | Tebuconazole was not mutagenic or genotoxic in a battery of in vitro and in vivo tests.   |

### SECTION 12. ECOLOGICAL INFORMATION

| Toxicity to aquatic plants                 | Pseudokirchneriella subcapitata<br>Growth rate<br>EC50: 15.2 mg/l<br>Exposure time: 96 h |
|--|--|
| Acute Toxicity to Aquatic<br>Invertebrates | Water flea (Daphnia magna)<br>EC50:  31.0 mg/l<br>Exposure time: 48 h                    |

Environmental Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate surface or ground water by cleaning equipment or disposal of wastes, including equipment wash water. Drift and runoff from treated areas may be hazardous to aquatic organisms in adjacent sites. Apply this product as specified on the label.

#### SECTION 13. DISPOSAL CONSIDERATIONS

| General Disposal<br>Guidance | Do not contaminate water, food, or feed by disposal. Pesticide, spray mixture or rinse water that cannot be used according to label instructions may be disposed of on site or at an approved waste disposal facility.                 |
|------------------------------|--|
| Container Disposal           | Triple rinse containers. Puncture container to avoid re-use. Dispose of empty container in a sanitary landfill or by incineration, or, if allowed by State/Provincial and local authorities, by burning. If burned, stay out of smoke. |

### **SECTION 14. TRANSPORT INFORMATION**

According to national and international transport regulations this material is not classified as dangerous goods / hazardous material.

Freight Classification: INSECTICIDES OR FUNGICIDES, N.O.I., OTHER THAN POISON
