Sodium (Actual)	0.3%		

LIST OF INGREDIENTS:

A list of the ingredients in this feed is available from the manufacturer or registrant.

FEEDING DIRECTIONS:

Country Junction 16% Lamb Grower should be fed to weaned lambs that have received Country Junction 18% Lamb Starter for at least 3 weeks and have been fully acclimated to dry pelleted feed. 16% Lamb Grower should be fed at 1.0 – 1.5% of body weight when switching from the Starter, after acclimation, increase the amount to 16% Lamb Grower to a maximum of 2.25% of body weight, fed in at least two equal feedings per day. The 16% Lamb Grower can be fed until the lambs are 30-35 kg in body weight for slaughter lambs before switching to the 14% Lamb Finisher. Lambs should always have access to good quality hay and be consistently consuming 1% of body weight as hay. Allow lambs free choice access to Sheep Pasture Mineral, salt and clean water at all times.

Consult your Wetaskiwin Co-op feed advisor or nutritionist for more detailed feeding directions.

CAUTION:

1. Directions for use must be carefully followed.
2. Do not use in association with another feed containing supplemental selenium.
