Ingredients: A list of the ingredients used in this feed may be obtained from the manufacturer or registrant.

SUGGESTED FEEDING SCHEDULE:

Early Weaning:

Age (Days)	Deluxe Calf Milk Replacer	¹ Calf 12 Milk-Bits	² Calf Starter
1 – 3	Colostrum		
4 – 17	Per feeding Schedule	115-225g per day	none
18 – 42	none	1000g per day	feed to appetite

*Based on approximate daily feed consumption per calf

¹ Have water available at all times

² starter should be op dressed with Milk-Bits

1 standard measuring cup (250 ml by volume) = about 150 g of pellets

General Recommendations

Serve only enough Milk-Bits that a calf will consume daily.

Use clean feeding utensils.

Keep fresh, clean water before calves at all times.

When calves are of age, feed an excellent quality legume hay.

Feed a quality, palatable calf starter ration

House calves in warm, dry and draft-free quarters.

Follow the program of your feed serviceman after calves are weaned.

To maintain freshness, keep unused portion of milk replacer in a closed bag or sealed container and store in a cool dry location.

Caution: Directions for use must be carefully followed.
