## **LIST OF INGREDIENTS:**

A list of the ingredients in this feed is available from the manufacturer or registrant.

## **FEEDING DIRECTIONS:**

Hoffman's BiAaMuGen Horse Protein Top Dress Supplement is a part of the Hoffman's line of equine feeds. This feed is intended to be fed at 150 grams (0.15kg) per head daily with a well-balanced ration adequate in energy, minerals and vitamins. This protein supplement should be well mixed with the ration fed to horses in training. Good quality hay should be fed at 1.25 – 2.0 kg per 100 kg of body weight. For best results feed the mixture to supply 150 grams of Hoffman's BiAaMuGen Horse Protein Top Dress Supplement daily. Feed the Hoffman's BiAaMuGen Horse Protein Top Dress Supplement during the training period and when requiring extra muscling. Forage, level and intensity of the work, and the condition of the horse will determine the length of feeding, but in general, feed for 40 to 60 days. Once proper muscling has been achieved, feed Hoffman's BiAaMuGen Horse Protein Top Dress Supplement to 75 grams (0.075 kg) daily during the remainder of the training period. Always allow free choice access to clean water, salt and Hoffman's Horse Mineral.

Consult your Wetaskiwin Co-operative Association Ltd. advisor or nutritionist for more detailed feeding directions.

## **CAUTION:**

1. Directions for use must be carefully followed.

## **LIABILITY DISCLAIMER:**
