

DYNAMIK Horse BLOCK

Mineral For Horses

This feed contains added selenium at 25 mg/kg

Canadian Registration No. 840108

GUARANTEED ANALYSIS

Calcium (actual)	15.0 %	Manganese (actual)	4 200 mg/kg
Phosphorus (actual)	7.5 %	Magnesium (actual)	2.2 %
Sodium (actual)	8.5 %	Sulfur (actual)	1.1 %
Iron (actual)	4 190 mg/kg	Iodine (actual)	34 mg/kg
Zinc (actual)	6 300 mg/kg	Copper (actual)	2 100 mg/kg
Fluorine (max.)	800 mg/kg	Cobalt (actual)	33 mg/kg
Pantothenic Acid (min)	380 mg/kg	Vitamin B12 (min)	2 500 mcg/kg
Niacin (min)	830 mg/kg	Riboflavin (min)	200 mg/kg
Menadione (min)	62 mg/kg	Folic Acid (min)	330 mg/kg
Thiamine (min.)	330 mg/kg	Pyridoxine (min)	115 mg/kg
Vitamin A (min.)	500 000 IU/kg	Biotin (min)	33 000 mcg/kg
Vitamin E (min.)	6 000 IU/kg	Vitamin D (min.)	50 000 IU/kg

INGREDIENTS

A list of the ingredients used in this feed may be obtained from the manufacturer or registrant.

DIRECTIONS FOR USE

When starting to feed, remove other salt or mineral products and feed DYNAMIK Horse Block free-choice at a rate of one block for every three horses. Feed continuously near a source of water.

When consumed in the expected amounts, DYNAMIK Horse BLOCK will supply adequate minerals and salt for horses under average conditions. Horses at moderate to heavy work should also be offered salt free-choice due to heavy salt losses in perspiration. Should consumption of DYNAMIK Horse BLOCK be less than expected, change for granular form horse minerals; provide blocks in several locations or locate near water supply. Should consumption of DYNAMIK Horse BLOCK be more than expected, feed salt beside the blocks or move the blocks to areas less frequented by horses.

Expected consumption per horse when fed free choice:

- Foal – 2.3 kg/month or 75 g /head/day
- Yearling or 2-year old – 3.0 kg/month or 100 g/head/day
- Pony – 2.3 kg/month or 75 g /head/day
- Bred mare or stallion – 3.0 kg/month or 100 g/head/day
- Lactating mare – 4.6 kg/month or 150 g/head/day
- Pleasure or show horse – 3.6 kg/month or 120 g/head/day
- Moderate to hard working horse – 4.6* kg/month or 150 g/head/day
- Race or performance horse – 4.6* kg/month or 150 g/head/day

*Plus salt offered free-choice to offset the animal's salt losses through perspiration.

NOTE :Feeding vitamins other than Vitamins A, D, E riboflavin, pyridoxine and thiamine to horses may not have a beneficial effect.

CAUTION

1. Directions for use must be carefully followed. 2. Do not use in association with another feed containing supplemental selenium. 3. Consumption of this product by sheep and goats may result in copper toxicity.
