

# 20 MF

Mineral Fortified Supplement for Beef Cattle on Pasture

- ✓ **WEATHER RESISTANT**
- ✓ **CONTAINS NO UREA**
- ✓ **CONSISTENT AVAILABILITY**

With 20% added protein, a full vitamin pack, and up to 125% NRC trace mineral requirements, 20 MF (mineral fortified) is designed to complement mid-range hays and forages.

This unique supplement is second to none when compared to other types of low-moisture blocks. This block is the product of a state-of-the-art patented process that provides a unique 24-hour feeding system. 20 MF is an exceptionally dense all-weather block that will give you the most for your money.

## SUITABLE FOR ALL CLASSES OF BEEF CATTLE ON PASTURE.

*When you need a nutrient dense supplement to complement different low protein forages, think The Feed in a Drum® 20 MF tubs.*

## FEEDING DIRECTIONS

Provide free-choice as a supplement to pasture beef cattle at the rate of one block for each 15 to 25 head. Place blocks in pasture near areas frequented by livestock, such as watering locations, shade or loafing areas. Cattle normally consume approximately 0.34 kg per head daily. Consumption may vary depending on climate, grazing conditions, condition of livestock and/or availability of other feeds. In situations where climate and/or other factors result in less than 0.34 kg per head daily, intake of supplement can be increased by increasing the number of blocks per pasture.

*Provide access to fresh water and free-choice salt at all times. Refer to on-product feed tags for more details and information. Direction for use must be carefully followed. Do not use in association with other feeds containing supplemental Selenium.*

## GUARANTEED ANALYSIS

Selenium, (added)	6 mg/kg
Crude Protein, (min)	20.0%
Crude Fat, (min)	5.0%
Crude Fibre, (max)	2.0%
