

GRAZING MINERAL

exclusively at UFA

Designed for lush forage conditions, PROSTOCK Grazing Mineral is optimized for grazing cattle on high-quality forage, reducing the risk of mineral imbalances during peak pasture growth.

BENEFITS

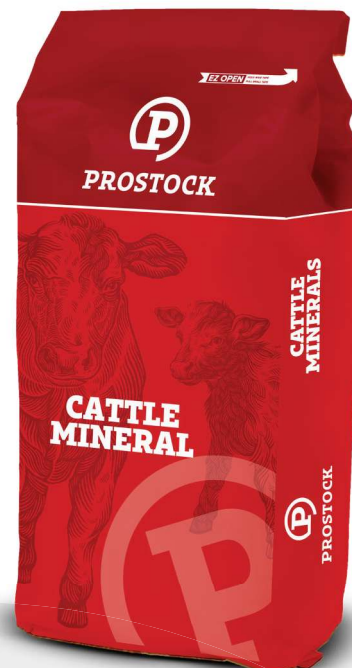

- Contains hydroxy trace minerals, which offers better diet stability, palatability, digestibility and bioavailability than the sulfate trace minerals used in other formulas
- Fully weatherized to reduce degradation from wind, rain, snow and sun
- Contains natural vitamin E, which is 2.5x more bioavailable than synthetic vitamin E
- This product contains salt, no additional salt needs to be added
- Red bag packaging for quick seasonal recognition

GUARANTEED ANALYSIS

Calcium %	16	Cobalt mg/kg	45	Manganese mg/kg	5500
Phosphorus %	6	Copper mg/kg	2100	Selenium mg/kg	30
Sodium %	8	Iodine mg/kg	220	Zinc mg/kg	6000
Magnesium %	3				

Vit A IU/kg	600,000
Vit D IU/kg	60,000
Vit E IU/kg	2500

FEEDING INSTRUCTIONS

- Feed free choice, to achieve an intake of 100 grams per head per day, to mature beef cattle on the range or in a dry lot. Feed proportionally less to lighter animals
- Provide a source of fresh, clean water at all times while feeding any PROSTOCK mineral

CAUTIONS & DISCLAIMER

1. Ensure adequate access to the mineral by the herd by placing mineral feeders/troughs near watering sources, feeding areas and in loafing areas.
2. Directions for use must be carefully followed.

Individual results from the use of this product may vary due to management, environmental, genetic, health and sanitation differences. Therefore, UFA does not warrant or guarantee individual results.
