

BEEF BREEDER MINERAL

(Medicated & Non-Medicated) exclusively at UFA

Formulated for breeding herds during gestation and lactation, PROSTOCK Beef Breeder Mineral offers balanced nutrition that can enhance fertility and herd performance.

BENEFITS

- Contains hydroxy trace minerals, which offers better diet stability, palatability, digestibility and bioavailability than the sulfate trace minerals used in other formulas
- Contains chelated trace minerals that ensure enhanced absorption and bioavailability during times of peak production and stress on animals
- Fully weatherized to reduce degradation from wind, rain, snow and sun
- Contains natural vitamin E, which is 2.5x more bioavailable than synthetic vitamin E
- This product contains salt, no additional salt needs to be added
- Available in medicated and non-medicated options
- Green bag packaging for easy seasonal identification

GUARANTEED ANALYSIS

Calcium %	11.5	Cobalt mg/kg	40	Manganese mg/kg	5500
Phosphorus %	9	Copper mg/kg	2300	Selenium mg/kg	30
Sodium %	7	Iodine mg/kg	200	Zinc mg/kg	7000
Magnesium %	3				

Vit A IU/kg	990,000
Vit D IU/kg	60,000
Vit E IU/kg	2500

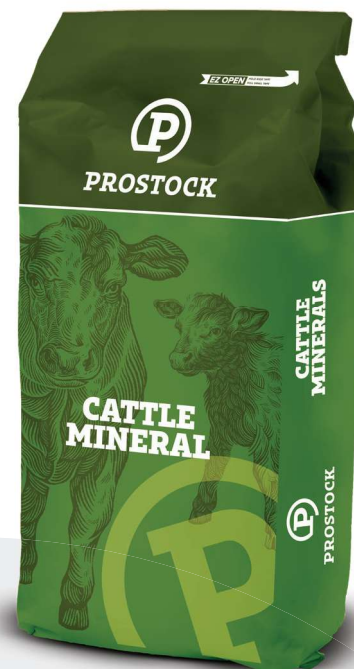

FEEDING INSTRUCTIONS

- Feed free choice, to achieve an intake of 100 grams per head per day, to mature beef cattle on the range or in a dry lot. Feed proportionally less to lighter animals
- Provide a source of fresh, clean water at all times while feeding any PROSTOCK mineral

CAUTIONS & DISCLAIMER

1. Directions for use must be carefully followed.
2. Ensure adequate access to the mineral by the herd by placing mineral feeders/troughs near watering sources, feeding areas and in loafing areas.

Individual results from the use of this product may vary due to management, environmental, genetic, health and sanitation differences. Therefore, UFA does not warrant or guarantee individual results.
