

EQUINE MINERAL

exclusively at UFA

A formulated vitamin and mineral supplement designed for all classes of equines. Provides a balanced profile of essential nutrients to support metabolic function, skeletal integrity and overall health. Intended for continuous, year-round feeding to optimize nutrient absorption and improve fiber digestion in forage-based diets.

BENEFITS

- Improves hoof and coat condition
- Provides better feed utilization
- Promotes strength and endurance

GUARANTEED ANALYSIS

Calcium (actual)	9.35%	Maganese (actual)	1196 mg/kg
Phosphorus(actual)	6.70%	Zinc (actual)	4000 mg/kg
Sodium* (actual)	7.90%	Fluorine (max)	460 mg/kg
Magnesium (actual)	0.50%	Copper (actual)	1000 mg/kg
Iodine (actual)	5.00 mg/kg	Cobalt (actual)	17.0 mg/kg
Iron (actual)	4100 mg/kg		

*equivalent to approximately 20% salt.

FEEDING INSTRUCTIONS

Place Equine Horse Mineral in an open mineral feeder, protected from the elements. Place one feeder for every 10 to 15 head. Initially remove all sources of salt. If mineral intake exceeds 150 grams per head per day, add salt blocks to mineral feeder: approximately one block for every 10-15 head. Expected free choice consumption will be approximately 150 grams per head per day. This will vary depending on the condition of the horses, plane of nutrition, age, weight, weather conditions and sex of the horse. Equine Horse Mineral may also be top-dressed on the horses' daily grain allowance at 150 grams, for mature horses. For best results, top-dress in two equal daily feedings. At all times, allow access to clean water and adequate high-quality dust-free forage.

CAUTIONS & DISCLAIMER

1. Directions for use must be followed carefully.
2. Feeding vitamins other than Vitamin A, D, E, riboflavin, pyridoxine and thiamine to horses may not have a beneficial effect.
3. Feeding Equine Mineral should be a part of a complete and well-balanced ration for horses of all ages.

Individual results from the use of this product may vary due to management, environmental, genetic, health and sanitation differences. Therefore, UFA does not warrant or guarantee individual results.
