A list of the ingredients used in this feed may be obtained from the manufacturer or registrant.

FEEDING DIRECTIONS:

Beef Cattle Breeder Mineral Block may be fed on a free-choice basis to all classes of beef cattle.

Expected intake is approximately 100 grams/head/day for mature cattle.

Control intake of mineral by removing all other sources of salt. Distance from water source will affect mineral intake. If intake is too high, move mineral farther from water source.

CAUTION:

1. Directions for use must be carefully followed.

2. Do not use in association with another feed containing supplemental selenium.

"Individual results from the use of this product may vary, due to management, environmental, genetic, health and sanitation differences. Therefore ADM Animal Nutrition does not warrant or guarantee individual results."
